

Steel | Single Door | IP66 IK10

VE-504020

500H x 400W x 200D

Versch Steel Wall-Mounted Electrical Enclosures deliver dependable protection for everyday electrical and control applications. Manufactured in powder-coated steel with a continuous formed polyurethane seal and secure locking, this series is engineered to achieve IP66 ingress protection, providing solid performance for general industrial control, HVAC interfaces, pumps and irrigation, lighting and signage, and small PLC/IO applications.

Protection Rating: IP66 IK10

Standards and Certifications: IEC/EN 60529, IEC/EN 62208

Materials:

Body:	1.2mm electro-galvanised steel
Door:	1.5mm electro-galvanised steel
Mounting Plate:	1.5mm electro-galvanised steel
Gland Plate:	1.5mm electro-galvanised steel
Seal:	Polyurethane
Surface Treatment:	Powder-coat 80-120micron
Colour:	RAL7035
Mass:	11 Kg.
